

Leader: Andrew Dagostino

Action List

- Use-Case Diagram final revision
 - Ensure alignment with customer expectations
 - Double check conciseness of descriptions and diagram
 - Examine use cases for any holes/uncovered requirements
 - Format descriptions in standard use case format

Summary

- Use-Case Diagram Revision
 - Important use cases that were missing were identified
 - Descriptions were written for each added use case
 - All descriptions were revised to ensure they were concise
 - This includes new ones
 - Descriptions were reformatted to align with expected use-case diagram description formatting
 - Diagram layout was improved for readability
